English, Kiswahili and French.

OBJECTIVE

Determined second year Software Engineering student with a strong passion for technology and problem-solving. A student eager to apply and convert knowledge gained into a real world environment through internship opportunity that encourages growth and learning experiences.

EDUCATION

Kirinyaga University

Pursuing Software Engineering- Second year student(2025/2026)

SOFT SKILLS

- Team collaboration
- Fast learner
- Strong communication

TECHNICAL SKILLS

- C language
- HTML/CSS
- JAVA SCRIPT
- Python

PROJECTS

Creation of an E-commerce system

- Currently ongoing, it is aimed at tracking sales, stocks, deliveries and payment method tracking.
- The project is done collaboratively and we hope to finish by the end of August.

Creation of my personal portfolio

- It showcases my skills and projects.
- The tools used include HTML, CSS and Java Script in developing the portfolio.
- As I learn new skills, I frequently keep on updating it.
- It is ready and I have deployed it.

Creation of a Mood Journal

- While learning the fundamentals of Python, I did the project using python libraries that included matplotlib, Tkinter.
- This project aims at creating emotional awareness in people who rarely check in with themselves.
- I am still working on something bigger that would need me to know Django concepts in order to scale this project and meet the emerging functional needs of users.

ACHIEVEMENTS AND ACTIVITIES

- Participated in hackathon project in the field of Web Development in March 2025.
- Worked for 3 months at Kechei Centre, Iten (June – August 2025).
- Member of the university club (Computer Society of Kirinyaga) – 2024 upto date.
